

Blue Ribbon

Residential & Commercial Inspections™

*"Where **BEST** Is Always The Standard"*

At Blue Ribbon we are taking steps to protect our valued customers and employees from the effects of the Coronavirus (COVID 19). The following list are the steps our inspectors are taking when they are inspecting your home or business to ensure the safety of everyone.

- 1) Our inspectors will be washing their hands several times during the inspection, and will provide our own supplies for the process.
- 2) We will bring sanitation wipes to disinfect any surface we need to touch during the inspection.
- 3) Our inspectors will practice social distancing and will not make physical contact with anyone, such as handshaking during greeting.
- 4) Our inspectors will wear masks during the inspection.
- 5) For everyone's safety we ask that only the inspectors be present inside your home or business during the inspection, and they will be available to review your inspection by phone once your inspection is complete.
- 6) As always, our inspectors will wear booties over their shoes while in your home or business to protect your flooring and to protect against any contamination.
- 7) We will take every precaution to ensure the safety of our customers and our employees.

We apologize for any inconvenience this may cause, but the safety of our customers and employees must come first during this pandemic.

Thank You.
